

LETTER OF CONSENT

I, Jackie, confirm that on Friday, September 26, I allowed Arthur Popov, a licensed contractor, to access and inspect my property. This inspection included both the exterior of the home and the interior of the garage.

I was present and aware of the visit, and I gave my full permission for the contractor to review the property, including entry into the garage.

I also acknowledge that, based on his inspection and advice, the remaining Notice & Order violation regarding siding and dry rot can be resolved by replacing the affected siding and one window. These repairs do not require a permit and can be completed using standard supplies from Home Depot. Chris is able to perform this work directly, avoiding unnecessary costs of hiring an outside contractor.

I support moving forward with these repairs so the violation can be cleared promptly and efficiently.

Signed,

Jackie
